

**Crosswalk of Paragraphs: OPPTS 870.1100 versus OECD 425
Acute Oral Toxicity: Up-and-Down Procedure**

OPPTS 870.1100 paragraph (a) Scope – Applicability corresponds to OECD 425 paragraph (none).

OPPTS 870.1100 paragraph (b) Purpose corresponds to OECD 425 paragraph 1.

OPPTS 870.1100 paragraph (c) Definitions corresponds to OECD 425 Annex 1.

OPPTS 870.1100 paragraph (d) Approaches corresponds to OECD 425 paragraph 3.

OPPTS 870.1100 paragraph (e) Introduction to the Up-and-Down Procedure corresponds to OECD 425 paragraph (none).

OPPTS 870.1100 paragraph (e)(1) Background corresponds to OECD 425 paragraph (none).

OPPTS 870.1100 paragraph (e)(2) Initial considerations corresponds to OECD 425 paragraph (none).

OPPTS 870.1100 paragraph (e)(2)(i) Choice of starting dose and dose progression factor corresponds to OECD 425 paragraph 5.

OPPTS 870.1100 paragraph (e)(2)(ii) Default starting dose and dose progression factor corresponds to OECD 425 paragraph 7.

OPPTS 870.1100 paragraph (e)(2)(iii) Delayed toxicity corresponds to OECD 425 paragraph 8.

OPPTS 870.1100 paragraph (e)(2)(iv) Computation corresponds to OECD 425 paragraph 9.

OPPTS 870.1100 paragraph (e)(2)(v) Humane practices corresponds to OECD 425 paragraph 10.

OPPTS 870.1100 paragraph (e)(2)(vi) corresponds to OECD 425 paragraph (none).

OPPTS 870.1100 paragraph (f) Principle of the limit test corresponds to OECD 425 paragraphs 11 and 12.

OPPTS 870.1100 paragraph (g) Principle of the main test corresponds to OECD 425 paragraphs 13 and 14.

OPPTS 870.1100 paragraph (h) Preparation for testing corresponds to OECD 425 paragraphs 15 and 16.

**Crosswalk of Paragraphs: OPPTS 870.1100 versus OECD 425
Acute Oral Toxicity: Up-and-Down Procedure (Continued)**

OPPTS 870.1100 paragraph (h)(1) Selection of animal species corresponds to OECD 425 paragraph 15 and 16.

OPPTS 870.1100 paragraph (h)(2) Single sex selection corresponds to OECD 425 paragraph 15.

OPPTS 870.1100 paragraph (h)(3) Age and weight ranges corresponds to OECD 425 paragraph 16.

OPPTS 870.1100 paragraph (h)(4) Housing and feeding conditions corresponds to OECD 425 paragraph 17.

OPPTS 870.1100 paragraph (h)(5) Preparation of animals corresponds to OECD 425 paragraph 18.

OPPTS 870.1100 paragraph (h)(6) Preparation of doses corresponds to OECD 425 paragraph 19.

OPPTS 870.1100 paragraph (h)(7) Administration of doses corresponds to OECD 425 paragraphs 20 and 21.

OPPTS 870.1100 paragraph (i) The Up-and-Down testing procedure corresponds to OECD 425 paragraphs 22 to 35.

OPPTS 870.1100 paragraph (i)(1) Choice of limit test and main test corresponds to OECD 425 paragraph 22.

OPPTS 870.1100 paragraph (i)(2) Implementation of the limit test corresponds to OECD 425 paragraphs 23 to 30.

OPPTS 870.1100 paragraph (i)(3) Implementation of the main test corresponds to OECD 425 paragraphs 31 to 35.

OPPTS 870.1100 paragraph (i)(3)(i) Performing the Up-and-Down Procedure corresponds to OECD 425 paragraph 31.

OPPTS 870.1100 paragraph (i)(3)(ii) Choice of starting dose and dose progression corresponds to OECD 425 paragraph 32.

OPPTS 870.1100 paragraph (i)(3)(iii) Stopping rules corresponds to OECD 425 paragraph 33.

Crosswalk of Paragraphs: OPPTS 870.1100 versus OECD 425

Acute Oral Toxicity: Up-and-Down Procedure (Concluded)

OPPTS 870.1100 paragraph (i)(3)(iv) Total number of doses corresponds to OECD 425 paragraph 33.

OPPTS 870.1100 paragraph (i)(3)(v) Calculations corresponds to OECD 425 paragraph 34.

OPPTS 870.1100 paragraph (i)(3)(vi) Humane practices corresponds to OECD 425 paragraph 35.

OPPTS 870.1100 paragraph (j) Observations corresponds to OECD 425 paragraphs 36 to 39.

OPPTS 870.1100 paragraph (j)(1) Toxic signs corresponds to OECD 425 paragraph 37.

OPPTS 870.1100 paragraph (j)(2) Body weight corresponds to OECD 425 paragraph 38.

OPPTS 870.1100 paragraph (j)(3) Pathology corresponds to OECD 425 paragraph 39.

OPPTS 870.1100 paragraph (k) Data and reporting corresponds to OECD 425 paragraphs 40 to 47.

OPPTS 870.1100 paragraph (k)(1) Data corresponds to OECD 425 paragraph 40.

OPPTS 870.1100 paragraph (k)(2) Calculation of the LD50 for the main test corresponds to OECD 425 paragraphs 41 to 44..

OPPTS 870.1100 paragraph (k)(3) Computation of confidence intervals corresponds to OECD 425 paragraphs 45 to 47.

OPPTS 870.1100 paragraph (l) Test reporting corresponds to OECD 425 paragraph 48.

OPPTS 870.1100 paragraph (m) Additional guidance for toxicologists corresponds to OECD 425 Annexes 2 and 3..

OPPTS 870.1100 paragraph (m)(1) Dosing procedure - dose sequence for main test corresponds to OECD 425 Annex 2.

OPPTS 870.1100 paragraph (m)(2) Computations for the likelihood-ratio stopping rules corresponds to OECD 425 Annex 3.

OPPTS 870.1100 paragraph (m)(3) Performance of the Up-and Down Procedure corresponds to OECD 425 paragraph (none)..
